

Public Notice

Lower Cedar River Restoration Assessment Project Open House
Thursday, June 11, 2015 from 6:00 p.m. - 7:30 p.m.

The City of Renton will hold a public open house concerning the Lower Cedar River Restoration Assessment Project. The purpose of the project is to evaluate the habitat needs in four reaches of the Cedar River within Renton and to identify feasible habitat restoration opportunities and concepts. This work will occur within the categories of synthesizing existing data, characterization of restoration opportunities and constraints, detailed analysis of specific restoration project opportunities and conceptual design development of the selected sites. Final design is expected to begin in fall 2015. The project is 100% funded by a Puget Sound Acquisition and Restoration Project administered by the Washington State Recreation and Conservation Office

The open house will feature information and exhibits that illustrate the recommended potential Chinook salmon habitat restoration sites along the Lower Cedar River. Residents are invited to learn more about the habitat restoration sites, concept design developments, ask city staff questions and provide feedback. The open house will be held on Thursday, June 11, 2015, from 6:00 p.m. to 7:30 p.m. at Renton City Hall, 7th Floor Conferencing Center, 1055 S. Grady Way, Renton, WA 98057.

If you have any questions or comments, please contact Hebé C. Bernardo, Project Manager, City of Renton Surface Water Utility, at (425) 430-7264 or e-mail: hbernardo@rentonwa.gov.

Jason A. Seth
City Clerk
